- Names of Special Departments
 - Introduction

“Every child has a fundamental right to his total oral health” is the motto of Department of Paedodontics & Preventive Dentistry.

Department of Paedodontics & Preventive dentistry aims to provide specialized dental care to children. Collaborates with other specialties to deliver comprehensive care to the child patient. Sedation dentistry being an aspect of this specialty, provides necessary and effective care to children, those with special needs.

The Department focuses on augmenting the oral health knowledge by engaging in continuing dental education programs, evidence based research activities, scholarly activities and outreach programs. Undertakes the training of families effectively in preventive measures thereby ensuring a lifetime of excellent oral health.
